

A refreshing NEW offering for your customers

Pranjapani Cinnamon Toothpicks from Sri Lanka

It's a widely accepted fact that the best cinnamon in the world, grows along the coastal strip near Colombo. In fact, the spice is even referred to as Ceylon cinnamon, after Sri Lanka's former name. Manufactured in Sri Lanka, Pranjapani Cinnamon Toothpicks, is not only a unique concept, but also an authentic product.

Why cinnamon toothpicks:

- Therapeutic Benefits – prevents tooth decay and promotes healthy gums
- Anti-septic and astringent properties
- A popular substitute for those quitting smoking
- Strong flavour and fragrance make it an effective, instant cure for bad breath

After a meal, the toothpick also serves as a mouth freshener when chewed on, thereby adding value even in small ways. It's no wonder at all, that this was the most sought after spice in the ancient world, where cinnamon was worth more than its weight in gold.
